

Please be advised that the City of Campbellton Water Department will carry out a **Water Main Flushing Program** on its water system **starting August 9 until September 3, 2021, or until work is completed** in order to continue providing quality water. During this time, residents may experience reduced water pressure and some water discoloration. Residents are advised to run their water and check it before laundering.

The City of Campbellton apologizes for any inconvenience caused to its residents during this period.
